

# Northpointe Suite Problem-Solving Courts

An easy-to-use solution to  
manage treatment courts.

**Northpointe Suite Problem-Solving Courts** helps you manage your treatment court participants including case processing and court activities. Your court works hard to promote positive change while holding offenders responsible for their choices - and as experts in RNR strategies and dynamic case flow management, we stand ready to help.

## **Problem-Solving Court professionals can:**

- Automatically determine program eligibility, and record eligibility decisions
- Access and administer validated risk/needs assessments
- Build meaningful case plans based on individualized assessment results
- Capture treatments and test results over time
- Track phases, results and outcomes
- Coordinate and collaborate with the entire treatment team

Our solution effectively links the efforts of the team to facilitate a needs-driven treatment plan that provides the best chance for lasting success and positive outcomes for participants.

## **Key Features:**

- Phase Management
- Case Management & Docket Tracking
- Document Phase Requirements
- Log Conditions and Violations
- Risk Needs Assessments
- Person and Treatment Summary
- Visual Case Timeline
- Drug Testing
- Track Specific Behaviors and Rewards
- Program Management
- SMS Reminders
