

Northpointe Suite Case Manager

Responsive Case Management for Corrections Professionals

The **Northpointe Suite Case Manager** is designed specifically for probation, parole, and community corrections agencies to manage all the moving parts of your team's caseload.

Assess, plan, supervise, build and maintain robust, individualized records to streamline processes and improve collaboration.

Corrections professionals can:

- Review a client's complete history with person-based files containing assessment results, auto-generated case plans, victim information, case history, and more.
- Manage violations and positive progress using systematic documentation tools to ensure responses and rewards are consistently applied.
- Track and set reminders for case managers and clients through Scheduling Assistant.
- Create your own forms, import and link documents to specific cases using the Virtual Filing Cabinet.
- Personalize views, fields, and dashboards to capture agency-specific data and define your own experience.
- Monitor agency workload with dashboards for case managers, supervisors and administrators.

Manage individualized client and case details from arrest to discharge with the Northpointe Suite Case Manager.
