

# eServices Suite

Connect with court partners and your community

eServices Suite allows you to extend access to justice to your court partners and community members, all in a highly configurable environment.

You set the parameters, and your stakeholders can easily access, file, and pay online. The eServices Suite has four user-friendly platforms that can be used together or separately.

Community members will appreciate:

- eAccess — Secure electronic access to information about public records and scheduled events.
- ePay — Fast online payments, configurable for court payments, fees, surcharges, and more.

Court partners benefit from:

- JusticeFiling — Electronic court document submission for attorneys, self-represented litigants, and other agencies.
- CV2Go — Notification subscription service for attorneys interacting with a court using one of our case management solutions.

## KEY FEATURES

- ↪ Extend self-help to increase your team's productivity
- ↪ Control access and rules at every level
- ↪ Securely register and authenticate users
- ↪ Create unique role-driven portals for specific user groups
- ↪ Eliminate unnecessary paper
