Case Management

Keeping Florida Courts Running at Peak Efficiency

ShowCase is a fully functional Case Management System that provides Florida Clerks of Court with automated workflows, document imaging, in-court processing, and other powerful capabilities that are proven to increase workload efficiency and timeliness.

Keep information flowing between different parts of the court with ShowCase's automated case processes and notifications, eFiling, cashiering and registry functions, calendaring, and sophisticated document management.

Court personnel can:

- Use Smart Docketing to trigger entire processes with a single entry and unlock unlimited configuration options for workflows
- Simplify the way judges find, view, and manage cases in the courtroom with In-Court Processing
- Minimize delays and user error with streamlined business processes and quick data entry and updates
- Rapidly pinpoint the critical information they need with extensive search capabilities and document linking
- Easily integrate data from other agencies with ShowCase Data Exchange Services

ShowCase is a fully functional case management system that adapts to your ever-evolving needs and serves some of the largest and most progressive courts in Florida.

Key Features:

- Imaging features for scanning and saving documents electronically
- Comprehensive search function
- Captures real-time courtroom activity
